# The total storage solution

Planning

Construction

Installation

As a dedicated supplier of Permastore<sup>®</sup>, Reliant Solutions prides itself on its excellent reputation and therefore takes any of its projects very seriously.

Our experience has given us a broad range of knowledge from the different projects we have worked on. This means our clients can rely on the correct sizing of tank for their application. In addition to our technical expertise, Reliant Solutions operates around New Zealand with trained crews, project managers and quality control management with vast experience in delivering their projects through to completion.

Reliant Solutions will provide the turnkey solution from specification of the right Permastore<sup>®</sup> tank to fulfil your needs to its final construction and service.

Reliant Solutions has a number of different projects at various stages of completion, from ground preparation to erection. Current projects include; Tasman DC, Richmond Balance Tank, Akoaroa Water Supply.

Recently Reliant Solutions undertook the installation of the largest Permastore<sup>®</sup> tank in Australasia, measuring 47.81m diameter, 7.03m high, storing 12,600,000 litres.

**Permastore<sup>®</sup> tanks** are used in the storage and treatment of drinking water, wastewater, process water, agricultural effluents, and aggressive applications of industrial effluent, municipal waste, leachate and mining sector uses worldwide.

With over 300,000 tanks globally, you decide who is the most credible.

Reliant Solutions successfully qualified to become New Zealand's distributors and installers of Permastore tanks late 2012 and have since risen to become one of the most sort after storage tanks in the New Zealand market.

**Buy once, buy right with proven product durability.**
